

Angelika Kovaleva

Web Designer & Graphic & UI/UX

Minsk, Belarus / E-mail: kovalyovaanzhela98@gmail.com / [LinkedIn](#) / [Behance](#) / [Web Site](#)

Summary:

Product Designer with over 5 years of experience in creating digital products for B2B, B2C, EdTech, and SaaS. I help businesses find design solutions and build a visual language for communicating with users. Specialized in UX research, design systems, and complex interface design for medical and construction sectors. Self-sufficient and result-oriented.

Professional experience:

Chat Space (2025 – present)

Minsk, Belarus (Remote)

Web Designer (UX/UI)

- Conducting usability audit and CJM analysis to identify key UX issues
- Improving LCP by 20% and reducing bounce rate by 15% through interface optimization
- Designing 30+ responsive screens in Figma for web and mobile platforms
- Implementing micro-animations (Figma + Lottie) to enhance user experience
- Preparing layouts for developers with auto-layouts and technical specifications
- Gathering requirements and iterating designs based on client feedback

Innowise / VOKA 3D Anatomy & Pathology (2024 – 2025)

Minsk, Belarus (Remote)
